COMMUNITY HEALTH PRACTITIONERS' REGISTRATION BOARD OF NIGERIA

GUIDELINES FOR THE ESTABLISHMENT OF COMMUNITY HEALTH COURSE(S) IN SCHOOLS/COLLEGES OF HEALTH TECHNOLOGY IN NIGERIA

To establish community Health courses in the schools/colleges of Health Technology (SHT) in any state, the following minimum requirements are expected from either the state ministry of Health or any private organization who seek to establish programmes in community Health.

1. LOCATION AND LAND AREA OF SCHOOL:

The school should be located, preferably, in the rural or at least a semi-urban area and must have basic model PHC clinic. It must be seated on minimum of five (5) hectares of land for recreational activities, future development, staff and students' hostel accommodation. It **should be a condition for accreditation and evidence of ownership to be submitted.**

2. HEAD OF SCHOOL/DEPARTMENT(HOD):

The Head of School/Department of Community Health must be a PHC tutor by training. However, those with additional relevant post-graduate qualification should be given priority in appointment.

3. HUMAN RESOURCES FOR THE DEPARTMENT:

A. Primary Health care tutors – minimum of six (8) permanent/full-time and 4 part-time staff.

Qualification: Community Health Officers with Diploma in Education (Primary Health Care). Those with higher degrees have an added advantage.

Employers of PHCTs (Community Health Practitioners) must be able to pay reasonable wages and allowances that will regularly make them perform their job diligently.

B. Ten (10) number of full-time lectures from other relevant departments with requisite qualifications to teach specialized subjects/courses (e.g. Anatomy, Community Mobilization, Nutrition, etc.), as applicable.

C. Adequate number of part-time/visiting lecturers from relevant specialties

(e.g., Anatomy, Physiology, Reproductive Health, Medical sociology, Biostatistics, Community Mobilization, Nutrition, etc), as applicable.

D. Administrative Staff:

- Clerical Officers/secretary one
- Messengers/Cleaners one

ADMISSION REQUIREMENTS (CHEW)

1. Holders of WASCE, SSCE, NECO, NABTEB or GCE O/L with five (5) credits at not more than two sittings which must include; English Language, Mathematics, Biology, Chemistry and Physics.
2. Junior Community Health Extension Workers (JCHEW) in addition the above requirement mentioned MUST be registered with the Community Health Practitioners Registration Board of Nigeria (CHPRBN) and possess a valid practice license.

ADMISSION REQUIREMENTS (JCHEW):

1. A candidate should possess three (3) credit in English Language, Mathematics, Biology and at least level pass in Chemistry and Physics in WASSCE, NECO, NABTEB or GCE O-Level sat not more than two sittings.
2. Existing workers (e.g. Ward orderlies, ward maids, and health attendants) in the health facility with relevant qualifications as stated above, are eligible if they meet the following criteria: (i) found suitable for training by the training institution (ii) Have nomination and support of intending student's government/non-governmental establishments.

PHYSICAL FACILITIES:

A. Administrative block:

This should accommodate the:

I. Adequately furnished office for provost/principal, with an anteroom and toilet facility.

II. Adequately furnished office for Deputy Provost/Vice Principal

(Administration) and Deputy Provost/Vice Principal (Academics),

With toilet facilities and furnishings, and

III. Adequately furnished HOD' S Office with Anteroom and toilet facility

IV. Adequately furnished offices and toilets for Administrative and support staff.

B. **Classroom:**

A minimum of two (2) large classrooms, each classroom should comfortably accommodate 50 JCHEWs and 75 CHEWs students. A minimum of 4 classrooms that can accommodate up to 105 (for additional 30 JCHEWs retrained for conversion).

C. Lectures/Tutors, Offices; (minimum of 6)

Not more than two (2) Lecturers/Tutors should be accommodated in an office, to enhance interaction with students. (12 by 12 feet)

D. Staff common room:

There should be a staff common room that can accommodate at least 20 for staff meeting, social activities and sharing ideals. The staff common room should have set of furniture (upholstery), T.V set, refrigerator, indoor games and journals

E. An Auditorium/Assembly Hall:

There should be very big hall (Auditorium) which could be used for the conduct of examination, meeting or for other social activities. Which can accommodate at least 500 persons.

F. Library:

A very spacious library complex that can accommodate at least 150 persons, which must have adequate reading areas for students/staff. There should be a minimum of five thousand (5000) volumes of relevant and current textbooks, journals and other reference materials. (Attach list of some

relevant materials). The library shall consist of Book library and functional e-library with minimum of 30 computers equipped with online and offline books.

G. Skills laboratory/Demonstration Hall (for Clinical Skills):

A very big demonstration hall which can accommodate about 50-75 students (in batches) and their tutors at a time; the room must also have appropriate instruments /equipment/models in their right quantities as contained and listed in the guidelines.

H. Medical Laboratory:

An appropriately equipped and furnished medical laboratory (for appropriate diagnostic skills), with the capacity to accommodate a minimum of 75 students at a time.

a) Equipment
b) Reagents (see attached list).

NOTE: This may not be necessary where a Medical Laboratory Sciences Department already exist in the school and are involved in the training of Community Health Students.

I. Toilet Facilities:

There should be adequate toilet facilities up to 15 for the students /staff, at the classroom and hostel areas. It can be ventilated improved pit latrine (VIP) or water closet.

J. School Primary Health Care Clinic:

There must be a functional School Primary Health Care Clinic (which must provide integrated services for all primary Health Care Components) with appropriate staffing (for a Primary Health Care Centre), to cater for the students, staff and individuals/families in the school's catchment area (see attached of equipment's).

NOTE: A prototype PHC Facility model can be collected from the Board's Headquarters. However, a more elaborate one will be welcomed.

K. Recreational facilities:

There must be recreational facilities, including the following:

a) Football pitch
b) Volley ball
c) A set of Table Tennis,
d) Basketball etc

The following Equipment for recreational Activities should be provided;

a) Football and jersey
b) Volleyball
c) Basketball with the baskets.
d) Bats, nets, and table tennis eggs (balls) etc

L. Hostel Accommodation:

There must be adequate hostel accommodation for both male and female students. The room must be well ventilated, not over-crowded, and there must be adequate bathroom and toilet facilities up to 15, and a separate laundry and kitchen where students can cook their meals.

Each hostel must have student's common room where they can welcome visitors. This should have the following:

a) Radio
b) Television
c) Indoor games; e.g., Ludo, Whot-cards, scramble,
d) Cable satellite Television, DVD video player, etc.

M. Computer laboratory:

The institution must have a computer laboratory equipped with adequate computer units for training and students, practice sessions.

A minimum of 75 units of computer sets is recommended. They should be connected to internet.

5. EXISTING DEPARTMENTS/PROGRAMMES:

The institution seeking to commence community Health Programme should have at least two (2) other approved health professional programmes (e.g Medical Laboratory Technician, Environmental Health officers/Technician/Assistant, pharmacy technician, Health information Management, dental technician/therapists, etc.).

6. PRACTICE AREA

There should be at least four (4) health facilities (i.e Primary Health Care Centres) designated for practical experience in the LGAs are to be used for rural experience for the students. These health facilities must be well equipped and adequately staffed with appropriate distribution of community health workers with complement of other health professionals as contained in the minimum health service package. They must provide integrated services for all primary Health care components and have high record of patient attendance for these services.

A duly signed memorandum of Understanding (MoU) shall be required from institutions with owners of all selected health facilities (government or private) for this purpose of students' practical experience.

One of the PHC tutor in the Community Health Department must be designated as the PHC Coordinator, who will liaise with the LGA PHC coordinator, and be responsible for all student's postings for practical experience.

7. CONDITIONS FOR ACCREDITATION

A school in addition to scoring 50 percent and above **MUST** fulfil the following conditions;

a) The Head of Department must be a trained and licensed Primary Health Care Tutor with additional qualifications.
b) The school must have a Memorandum of Understanding with owners of Health Facilities used for students' training.
c) The school must possess a minimum of 10 PHC Tutors amongst the academic staff for initial accreditation.
d) The school must score not less than 70 percent of the marks for Medical Laboratory.
e) The school must score not less than 80 percent of marks each for Demonstration Hall /skills Laboratory.
f) The school must score not less than 80 percent of the marks each for School Demonstration clinic/Teaching Health Centre.
g) The school must score not less than 80 percent of the marks for practice Areas.

h) The school must possess at least a functional 32-seater school bus and a vehicle for supervision during practical attachment.
i) The school must meet the expected capital base and agree with the condition of staff welfare for private schools.

8. CAPITAL BASE

The institution must have up to fifty (N50,000,000) million Naira (minimum) in her cooperated account as capital base. Statement of account must be demanded during visit.

9. STAFF WELFARE:

The underlisted shall be the minimum monthly salary of the engaged full time PHC Tutors;

a. Head of department – N150,000
b. PHC Tutors with degree certificate---N130,000
c. PHC Tutor without additional degree qualification---N100,000

GRADING/CLASSIFICATION OF ACCREDITATION

The grading and classification of training institution shall be stated below;

70% and above -Excellent: 5 years full accreditation (75 CHEWs, 30 retrainees & 50 JCHEWs)

50 – 69% -Satisfactory: 3 years Provisional (50 CHEWs, 30 retrainees & 30 JCHEWs)

40 -- 49% - Re-visit.
39% and below --- Denial

The decisions on accreditation could be as follows:

1. **Full Accreditation** – When an institution demonstrates minimum compliance with all applicable accreditation criteria. The accredited status shall be valid for 5 years. In specific cases, there may be requirements for follow-up measures such as interim reports, etc.
2. **Provisional/Conditional Accreditation** – This could either be granted;

a). When an already accredited institution fails to meet the requirements for full accreditation during reaccreditation review.

b). When an institution is undergoing the accreditation process for the first time, which presents shortcomings that could potentially be rectified within a reasonable period of time. This status is conferred for a specific length of time not to exceed 3 years. If the institution comes into compliance with the accreditation criteria within the allotted time frame, the term of accreditation will be extended up to the remainder of the 5 years. If the institution does not come into compliance within the given time period, the Board will deny accreditation. If accreditation is denied, the institution can reapply after 2 years.

3. **Denial of Accreditation** – When an institution does not meet the criteria for accreditation. The applicant may reapply after a period of 2 years.
4. **Revocation of Accreditation** – When an institution does not meet the criteria for continued accreditation (based on institution's report of any substantial changes to accreditation criteria) or refuses to have the institution re-evaluated at the appropriate time.
5. **Deferral** – Where the Board may require further information in order to be able to make the appropriate decision on accreditation. A specific time limit will be defined and the institution will maintain applicant status in the interim period.

MINIMUM MATERIAL RESOURCES AND EQUIPMENT REQUIREMENT FOR COMMUNITY HEALTH PROGRAM

A. DEMONSTRATION ROOM/SKILLS LABORATORY		
SN	**Description**	**Quantity**
1	a) Designated office for clinical instructor	1
	b) Designated Clinical instructor	1
2	Sphygmomanometer (Aneroid, Mercury and Digital)	8
3	Clinical Thermometer (Oral and Rectal)	10 of each type
4	Stethoscope (bell and Diaphragm)	8
5	Foetal Stethoscope	5
6	Examination couch	2
7	Diagnostic sets	5
8	Wash hand basin	5
9	Trolleys	3
10	Weighing scales (infant & adults)	5
11	Weighing scales with height	2
12	Hanging weighing scale	2
13	Mid-upper arm circumference strip (measuring tape--2)	100
14	Different sizes of Gallipots with lid	10
15	Trays	6
16	Vaccine carriers	3
17	Cold box with icepacks	2
18	Deep freezer, medium size	1
19	Surgical scissors, and forceps (different sizes/shapes)	2 of each type
20	Kidney dishes (different sizes)	10
21	Measuring jugs	2
22	Angle Poised Lamp	1
23	Pen Torches	10
24	Microscope	1
25	Consumables (surgical blades, Needles & syringes, Catheters, infant urine bags, Dressing, etc.) hand towel/paper towels, tourniquets, intravenous giving (iv) sets etc.	10 packets of each
26	Steriliser	2
27	Stretcher	2
28	Instrument for dressing, incision and Delivery kits	10 assorted instruments (2 of each type)

29	Thermometer and forceps holding jar	5
30	Anatomical models organs	20
31	Charts of organs and systems	20
32	Bed and beddings	2
33	Audio-visual aids (Projector, Tv Set, PAS etc.)	3
34	Life sized models	5
35	Ambu kit (adult & infant)	2 of each type 3
36	Breast models	5
37	Catheter model (male and female)	5
38	Child birth simulator	2
39	CPR Manikin (adult & infant)	1 of each type
40	Dual sex Anatomical Torso	1
41	Dual sex anatomical torso with open back (28 parts)	1
42	Intubation Model (adult & infant)	2 of each type
43	Mamanatalie	2
44	Neonatalie	5
45	Maternal Pelvis Model	2
46	Resuscitation trays (Ambu bag, suction bulb, 2 galipots, 1 kidney dish, stethoscope, hand gloves)	2 Sets
47	Skeleton (Articulated)	2
48	Testicle Model	2
49	Anatomy posters/ photograph	2 for each system
50	Partograph forms/ Charts	50/1
51	Screens	2
52	Food demonstration items (assorted)	10
53	Snellen's charts	4
54	Tongue depressor (plastic, wooden and metal)	5 each
55	Nail scrubbing brush	5
56	Intravenous (iv) giving set, Cannula/scalp vein needles (different sizes)	1 packet Different sizes
57	Drip stand	2
58	Tourniquet	5
59	Pedal waste bin	2
60	Suction apparatus (mechanical & electronic	2 of each type
61	Umbilical cord clamps	1 packet
62	Anti-shock garment	1
63	Kangaroo pouch/ 6 yards cloth wrapper	2
64	Suture materials (chromic catgut, silk, nylon, suturing needles)	1pkts each

65	Implant insertion and removal kits (Commodity, disinfectant, 2 Galipots for wet and dry swab, surgical gloves, kidney dish	2
66	IUD insertion kits (surgical gloves, Vaginal speculum, sponge holding forceps, single-tooth tenaculum, Gallipot with swab, uterine sounds, scissor and commodity)	2
67	WHO Medical Eligibility Criteria Wheel (MEC)	50
68	Basic counselling strategy (BCS)Plus	2

B. DEMONSTRATION CLINIC/TEACHING HEALTH CENTRE

S/N	Description	Quantity
1	Stretcher	2
2	Instrument for dressing, (gallipot, sponge holding forceps, straight scissors, dissecting forceps, needle holder, suturing materials)	As appropriate
3	Incision and drainage Materials (scapel, scapel-holder, toothed artery forceps, sponge holding forceps)	As appropriate
4	Delivery kits	2 sets
5	Equipment for sterilization (autoclave, sterilizer)	2 each
6	Cold-chain (Cold Box. Vaccine carrier (Geostyle), Ice packs different sizes 2 each, Refrigerator 1	
7	Bed and beddings	6
8	Screens	3
9	Snellen charts	4
10	Diagnostic set	3
11	Weighing scale for adult/children	2 of each
12	Weighing scale with height	1
13	Stethoscope	5
14	Foetal stethoscope	5
15	Food demonstration items	10 assorted
16	HMIS records	As applicable
17	Treatment protocol (Treatment cards)	As applicable
18	SOP and other treatment protocol (Standing orders CHO/CHEW and JCHEW)	

19	Sphygmomanometer (Mercury, Aneroid and Digital (micro life),	3 of each type
20	Glucometer	5
21	Examination couch	2
22	Oral, Rectal and digital Thermometers	10 of each
23	Trolleys	3
24	Wash hand Bowls/ Sink	5
25	Surgical scissors and forceps, Scalpel	2 of each type
26	Essential drugs	As applicable
27	Personal protective equipment (hand gloves - 1 pack, aprons - 10, gowns - 3, face masks- 2 packs, boots (different sizes)	
28	Pedal waste bin	5
29	Thermometer jar	3 of each 5
30	Forceps holding jar/Cheatle forceps	5
31	NG. Tubes	1 pack
32	IV giving set / scalp vein needles, cannula (different sizes),	1 pack each
33	Drip stand & tourniquet	6
34	Tongue depressors (Wooden)	2
35	Suture materials (chromic catgut, silks, nylon, suturing needles)	1 pack each
36	Umbilical cord Clamps	1 pack
37	Kangaroo pouch (for KMC)/ 6 yards Cloth wrapper	1
38	Implant insertion & removal kit (Commodity, disinfectant, 2 Galipots for wet and dry swab, surgical gloves, kidney dish, single-tooth tenaculum,	1 set
39	IUD insertion kit (surgical gloves, Vaginal speculum, sponge holding forceps, tenaculum, Galli pot with swab, uterine sounds, commodity)	1
40	WHO MEC Wheel	3
41	Gallipot & kidney dish (different sizes)	5 each
42	Partograph chart	1
43	Partograph forms	100
44	Ambu kit (infants & adult)	2 each
45	Pulse Oximeter	1

B. SIDE LABORATORY

SN	Description	Quantity
1	Refrigerator (1 chest & 1medium)	2
2	Microscope (monocular and binocular)	2 of each type
3	Manual centrifuge	5
4	Rough balance	2
5	Salhi Haemoglobinometer	3
6	Hot Air Oven	1
	FURNITURE	
S/N	**Description**	**Quantity**
1	Long bench	2
2	Working benches/platforms	As appropriate
3	Long stools	75
4	Tables	1
	CHEMICAL AND REAGENTS	
S/N	**Description**	**Quantity / Bottles**
1	Acetone	1 litre
2	Methyl alcohol	1 litre
3	Ethanol	1 litre
4	Sulphuric acid	1 litre
5	Hydrochloric acid	1 litre
6	Absolute alcohol	1 litre
7	Giemsa Stain	2 bottles
8	Lieshman Stain	2 bottles
9	Field Stain A	2 ,,
10	Field Stain B	2 ,,
11	Acetic acid	1 litre
12	Ethanol	1 ,,
13	Iodine Crystals	2 bottles
14	Methylene blue	2 ,,
15	Hydrogen Peroxide	2 ,,
16	Benedict Solution	2 ,,
17	Carbol Fucshin	2 ,,
	CONSUMABLES/ Equipment/ Materials	

SN	Description	Quantity
1	Filter Paper	2 packs
2	Pocket Mask	2 ,,
3	Combi 2 for Protein test	2
4	Clinistix Strip Reagent	2
5	Glucometer	2
6	Urinometer	2
7	Spirit Lamp	10 pcs.
8	Glass Slide	2 packs
9	Cover Slips	2 ,,
10	Long Test Tubes	2 ,,
11	Conical Centrifuge Tubes	2 ,,
12	Taliquist Paper for HB	2 ,,
13	Cotton Wool	2 ,,
14	Lancet (Pricking Needles)	2 ,,
15	Kidney Dishes	5
16	First Aid Box	2
17 18	RDT Kits (HIV, Malaria, VDRL, RPR, PT. test strip) Safety boxes	1 pack of each 10 pcs.

There shall be Memoranda of Understanding with Local Government Authorities, State Ministries of Health and other relevant institutions/organizations for practical exposures, especially where the Training Institution is owned by private individuals and organizations.
